FRIDAY MORNING JUNE 10 1864

For President,
ABRAHAM LINCOLN,
Of Illinois
For Vice-President,
ANDREW JOHNSON,
Of Tennessee

For Presidential Electors,
GEORGE L WOODS of Wasco County,
B N GEORGE of Linn County
J F GAZLEY of Douglas County

The Presidential Nominations.

The dispatch this morning announces the names of the President and Vice President of the United States for four years from next March The people of Oregon will cordially ratify and respond to the action of the National Convention indeed, so far as Mr Lincoln was concerned the work of that body was simply the expression of a conclusion long ago formed and insisted upon by the people of almost every loyal State. His nomination was, therefore, as absolutely sure as anything human ever can be, and his election will follow with equal certainty and will give the world complete assurance that the Union will be preserved and the integrity of our free institutions and the power of the Government triumphantly maintained

Of Andrew Johnson's eminent fitness for the second office in the gift of the American people, it is needless for us to speak His name will be a tower of sublime strength to the cause of patriotism and his selection will show that no narrow party feeling controlled the action of the great leaders of the National Union organization Though an ardent and one of the most radical of pro slavery Democrats until the breaking forth of the rebellion, he was among the first, when the nation was attacked by rebel assailants, to rush forward in its defense, and has ever since been full of energy and fidelity in earnestly supporting the Government [illegible] [illegible] for "the peculiar institution" long ago disappeared and he has labored with [illegible] and quenchless zeal to make his own State free Such a man,—experienced as a statesman, faithful as a patriot, and warm[illegible] as a lover and defender of practical [illegible] is eminently worthy of the cordial [illegible] which he is sure to receive and which will elevate him to a position where his excellent merits will be justly appreciated Fittingly associated with the President, whose honesty is proverbial their names will win a [illegible] [illegible] greater and more momentous than any ever recorded in our history, and their success will be hailed as the bow of promise that there shall be no more war or rebellion Let then the hearts of all loyal men be full of joy and rejoicing —let the efforts of all be so directed to the accomplishment of the glorious result, which must follow and grow out of their election"

LARGE REINFORCEMENTS — On Monday, April 18th, says *Forney's Press* the Congress of the United States suspended its session in honor [illegible] respect to a large body of troops [illegible] [illegible] Washington to join the [illegible] It must have been [illegible] [illegible] ment that could thus be [illegible] in the Capital where the uniform is more common than the dress of the civilian This fact is one of many which show that the apparent quiet in Virginia is not the result of inactivity, but that an immense work is being rapidly and silently performed The Administration is employing all its energies in the organization of victory, great forces are being moved, equipped, and placed in position

The rebel Secretary of the Treasury, Memminger, in his report to the rebel Congress, some months ago, said that unless the Confederate Government could raise five hundred thousand men for the army, and ten hundred millions of dollars by the 1st of April they would have to succumb They have failed most signally in reaching either the military or financial mark stated to be so absolutely necessary by their Secretary of the Treasury to keep them afloat

DRIVEN OUT OF ENGLAND —A letter to the Evening *Post* from London written by an intimate friend of Garibaldi—Mr Karl Blind, probably—positively states that the General left England because the Government had informed him that his visit was disagreeable to the French Emperor

TAXING THE NATIONAL BANKS —Secretary Chase has addressed a letter to Senator Fessenden Chairman of the Committee on Finance, recommending that the personal property and credits of banking associations which derive their organization from National law, and for national purposes be subject to exclusive national taxation

The American war is revolutionizing even the localities of ancient Rome Pompeii is to day surrounded on every side by a large cotton field, and similar plantations occupy the neighborhood as far as Castellamare and Salerno

A petrified rattlesnake was recently found in a block of stone Petrified copperheads are quite plenty since the late election

Stanilaus the Indian murderer, was hanged at Colville on the 20th ult

ANOTHER PROOF OF FEMALE PATRIOTISM — In the years that are past, during this [illegible] rebellion the self sacrificing devotion of rebel wives and daughters to their cause has been paraded throughout the length and breadth of the land as a wonderful thing No doubt it is very properly so considered by those who are in sympathy with the sacrifice While in their own quiet and unobtrusive way our Northern women have made greater sacrifices for a sacred principle and not for the defense of their already secure homes no trumpeting of praise has sounded in their behalf Their deeds of goodness or devotion they were not impelled by any personal consideration of danger or suffering They gave up no jewel or ware to procure the means of defense and subsistence, because the circumstances surrounding them did not make the demand Now that the financial condition of the Government can be effectually improved by their precept and example in discountenancing the consumption of imported fabrics they have turned resolutely to home manufacture, and soon each pattern of Yankee calico will envelope the living form of an actual, lovely and loving Goddess of Liberty A correspondent of the New York *Tribune* writing from Washington under date of May 3d, gives an idea of the latest sacrifice our Eastern women are making for the success of the Union cause He says

> The loyal ladies here are earnest in their anti importation movement and already have some of the wealthiest women of Washington donned the domestic calico Gold must go down and currency up Mrs Elizabeth Cady Stanton suggests the greenback style of print for these robes of patriotism

WEALTH VS POPULARITY —A little paragraph is going the rounds of the Eastern papers to the effect that a square league of the Mariposa lands is worth at least twenty millions of dollars It is rather a difficult matter to decide upon the precise value of mineral lands in a section of acknowledged but not uniform richness, and we may as well accept the statement for truth as undertake to disprove it The extensive California claim of John C Fremont is located on this fabulously rich Mariposa land, and while we may not be just in associating the currency of this speculation with his known political aspirations, it is at least fair to presume that interested parties have affixed the valuation to his estate, in order to make his opposition appear more formidable Such an exalted idea of Fremont's wealth may fascinate a handful of small and sordid souled men, but other considerations will weigh with those having the President making power. The popularity of Lincoln, who has been fully tried and not found wanting, will outweigh the possession of more "square leagues" than the Cleveland candidate can scare up In other words, square leagues must succumb when arrayed against Union leagues

REMARKABLE DEATH BY LIGHTNING —The death of George W Spitler of Renselaer, Indiana, by lightning recently was one of the most peculiar instances of the kind on record The house is situated about one mile from the town on a considerable sand ridge in a grove of tall timber and is two and a half stories high, protected by a lightning rod the first three sections of which are octagonal copper, the balance is rod iron The most reasonable theory is that the copper received a greater charge than the iron could carry off The consequence was, that a portion of the electricity was diverted from the copper to the house entering the roof some little distance from the rod It passed down into the apartments of the dwelling meandering its way through some four or five rooms severely shocking several persons that were asleep in them as it passed It entered the room of the deceased which is on the first floor, where he was in bed with his wife It passed up the foot post of his bed, through his body and down the head post, instantly killing the deceased, and shivering it as it passed then through the floor into the ground His wife, who was awake at the time, was unconscious that her husband was struck and felt the shock in her foot, in which she was afflicted with rheumatism. He had been awake but a moment before and changed his position in bed She had been up but a moment before and closed the door The deceased had changed his position to the back part of the bed to enable her to get in without inconvenience He lay quietly—death had done its work so suddenly as not to disturb a muscle The bedroom was lighted for a moment by the flash and as above stated Mrs. Spitler felt a slight shock in her lame foot Little dreaming that her husband was a corpse by her side, she quietly remarked "That shocked my foot" There was no reply, when, placing her hand upon him, the dread truth flashed upon her mind. An examination of the body disclosed no marks save a slight discoloration of the skin in a straight line from the foot to the head. There was no distortion of the features—all placid as though asleep The deceased was among the first settlers of Jasper county, and for four years filled the office of Clerk, Auditor and Receiver of the county and has been identified as director in several of the public works of the State

LIQUOR IN THE ARMY —General Howard made the following sensible remarks as to liquors in the army, in a late speech

I did not drink at college, I did not drink at West Point, but when I got into the army I found it was all the fashion If you went into an officer's quarters, the first thing was to offer you something to drink It was thought you did not treat him with proper respect if you did not I fell into the habit I drank whisky and offered it to others. When I was stationed at Florida, I once offered whisky to an officer, and he declined I urged him to drink and he drank A short time after I attended him in the horrors of delirium tremens, and I made up my mind that it was wicked, and that I never would do it again and I have not I do not keep it in my quarters or my tent I do not offer it to any officer or to any man and I will not I know it is a hard stand to take, especially for a young officer, but I can say from my own experience that it will pay

At the inauguration of Governor Hahn at New Orleans, on the 4th of March, the voices of 8,000 school children were accompanied by the strains of several military bands, and the chorus was swelled by the beating of 50 anvils, the ringing of all the bells in the city and the thunder of 50 pieces of artillery The cannon were fired simultaneously by one electric wire, the ends of which were brought to the table of the conductor of the band and the ringing of the bells were controlled by connecting a wire from the table with the telegraph of the fire department The effect was grand beyond description

JEFFERSON ON SECESSION —"No man, no association of men, no State or States has a right to withdraw itself from the Union of its own accord The same power that knit us together can unknit The same formality which formed the links of the Union must consent to the withdrawal of any one branch of it Until that consent has been obtained any attempt to dissolve the Union or obstruct the efficacy of its constitutional laws is treason—treason to all intents and purposes."

GREAT GUN EXPERIMENTS.—The New York *Post* remarks

The English mind is newly agitated over a question of great guns The long expected contest between the Whitworth and Armstrong systems of artillery commenced at Shoeburyness on the 4th March, and although the details of the trial are kept secret at present, it is understood that a minimum of 3,000 rounds will be fired from each gun and that the contest will be necessarily very tedious, extending over a period of two or three months, if not more. Sir William Armstrong is represented by three 12-pounder breech loaders and three muzzle-loading shunt guns of the same caliber, and Whitworth by three muzzle loaders of the same size These nine guns are already on the ground, and three 70 pounder Armstrong breech loaders, three 70 pounder Armstrong muzzle loaders, and three 70 pounder Whitworth muzzle loaders were on their way from Woolwich, to Shoeburyness at last advices This grand course of experiments is conducted under the direct supervision of the Special Committee of the Ordinance Board which was appointed to examine into the merits and defects of the two rival systems The progress and results of the trial will be regarded with nearly as much interest in the United States as in England, for although our Rodmans and Parrotts are very deadly and effective there is probably room left for improvement even in our superior system of artillery practice

PHOTOGRAPHS TAKEN BY ARTIFICIAL LIGHT —Photographs are now taken very successfully by the aid of the new magnesium light Fifteen grains in the form of fine wire will burn a minute, and not cost more than a few cents. At the distance of eight feet from the sitter, the light produces a negative equal to any obtained from sunlight under the light, the harshness of the shadows and a distribution of light and shade are completely at the control of the operator This opens a new page in photography

MEETING OF THE COMMON COUNCIL.—The usual weekly meeting of the Common Council was held last evening. President McCraken in the Chair.

The following members were present: Councilmen Bennett, Frazar, Hurgren, Goodnough, Graden, Starr.

The minutes of the last meeting were read and approved.

The bill of J. D. Dunseth, $132, for painting plaza fence, was reported correct, and a warrant was ordered to be drawn for that amount.

The committee on health and police, to whom was referred the bill of O. Risley, reported a reduction of $30 from the original account, and, on conditions, warrants were ordered to be drawn for the amount of $30.

Warrants were ordered to be drawn for the amount of $1,797 50, in liquidation of a judgment, costs, etc., accruing against the city for the past 19 months, in favor of T. C. Walters, concerning the contracts and building of the fire cisterns.

Warrants were also ordered to be drawn in liquidation of a judgment obtained by the Gas Company, against the city for the amount of $286 50.

A report was submitted from the City Surveyor, regarding the space between buildings and the blocks on Front street, from the south line of the city to D street; which shows considerable irregularity to exist. The report was referred to the committee on streets.

The following claims against the city received the consideration due to them, and warrants were drawn in their order: H. L. Hoyt, fees, etc., as City Marshal, $64; Seven men, detailed as special police, for services on election day, $32; A. J. Knott, Deputy Sheriff, fees and board of Chas. Stuart, a city prisoner confined in the county jail, $23; Graden & Shattuck, repairing hose cart for Protection Fire Co., $5 50; C. H. Myers, for work done on fire cisterns, and at different Engine Houses, lead pipe, etc., $129 29; H. L. Pittock, advertising ordinance, $4 50.

Warrants were ordered to be drawn for the amount of $37 75, fees, etc., due the City Recorder, May 31st.

A bill of the City Marshal for $22, in consideration of a month's attendance on the city Council, was referred to the committee on current expenses.

A bill of Brelsford & Ewry, for glass and frame, for the preservation of the grade chart of Jefferson st., amounting to $5, was referred to the same committee as above.

The City Treasurer was authorized to refund amounts remaining due and unpaid, on the special tax, levied and collected by the last Council.

On motion, the Council proceeded to an election of a member, to fill the vacancy occasioned by the resignation of Councilman Lewis, and J. W. Cook was elected upon the first ballot.

On motion of Councilman Frazar the City Marshal was authorized to procure manilla matting, and cover the floor of the Council Chamber inside the bar, with a strip leading through the aisle to the door.

J. F. Starr was granted the use of a portion of Front street for building purposes.

Adjourned.

PACKING DRIED FRUIT.—An amusing incident occurred in one of our wholesale grocery establishments, a few days since, wherein the Porter was considerably surprised, to find his work upset, in the following manner. He was packing dried apples in half barrels, and tried to compress them into such a space as to admit of 125 pounds to the keg. In order to do this a hydraulic pressure was obtained by means of a jack screw, which worked admirably, and effectually settled the fruit where it was wanted. But it so occurred that about two gallons of water got into one of the kegs before it was filled full of apples, and while the Porter had loosened the screw to place more fruit under it. Upon his return, after a short absence of a few hours, he found the apples spreading themselves on the floor about the keg, having swelled sufficient to upset the jack-screw. He had more apples than he could manage.

THE JENNY JONES.—We understand that the insurers of the clipper schooner *Jenny Jones*, have adopted a liberal course in regard to her policy of insurance, and in consideration of the fact that the accident was unavoidable, and that she was in the hands of a capable navigator they are willing to stand a portion of the risk. This will prove a great relief to Capt. Jones, and enable him to immediately repair the vessel. For the lack of sufficient docks in Portland, the schooner will be temporarily fixed up here, and taken to Victoria for completion. When finished she will return a propeller.

PERSONAL.—The member of Congress elect, J. H. D. Henderson, arrived last evening on his return from the late canvassing expedition to the mountain districts. He leaves by stage for his home, this morning. Judge Wyche was also in the city last evening, *en route* to Seattle and Port Townsend, on the Sound.

GRAVEL FOR PROTECTION.—Col. McCraken has been employing men to procure gravel from the opposite bank of the river, to fill in at the foot of C street and protect his salt works, before a mammoth cave is discovered in that vicinity. The water is receding, but slowly.

NEW BUILDINGS.—The upper part of the city is vieing with the lower and middle portions, in the number of new buildings at least, if not in the quality and character of them. The work on two new frame stores has lately been commenced on Front street, between Salmon and Main.

RATIFICATION.—LINCOLN AND JOHNSON.—It has been determined to have a grand ratification of the nominees of the National convention at Baltimore. Abraham Lincoln for President, Andrew Johnson for Vice President. The meeting will be held this evening at the corner of Front and Washington streets.

CHOICE FURS.—We observed on the streets yesterday, an Indian selling some very choice specimens of the Sea Otter furs. The price obtained was, upon the average, about $6 50 a piece. White Beaver furs, plucked and in good condition, sold at $2 per pound.

BROKE THROUGH.—One of Camp & Dellinger's heavy trucks, in passing up Front street yesterday with a large load of flour, broke through the planking between Oak and Pine streets, and was delayed for some time, until it could be pried out with levers.

THE steamer *Relief* will leave Canemah on Saturday morning for Salem.

THE FUNERAL YESTERDAY.—There was quite a large assemblage in attendance at the funeral of the late J. P. Denison yesterday afternoon. The Fire Department was well represented by members of the different Engine Companies, the Chief Engineer and assistants. The members of the two Brass Bands of the city were united, composing a Band of twenty pieces, and did their best, performing several short airs, appropriate to the occasion, which rendered it one of solemnity. After returning from the cemetery the following resolutions of condolement were presented, from Columbian Engine Company No. 3:

WHEREAS, It hath pleased the Divine Ruler of the universe to call from among us John P. Denison, a brother member, one whom it was our privilege to know in the private relations of life, as well as in the discharge of our duties as Firemen.

AND WHEREAS, This sudden bereavement demands from us an expression of our feelings, therefore be it

Resolved, That while we bow in humble submission to the decree of an allwise Providence, our hearts are clothed in sorrow at the loss of one who was endeared to us by many ties of friendship and affection, and we sincerely mourn, that while yet in the spring time of life, he was so suddenly called to that bourne from whence no traveler returns.

Resolved, That we deeply sympathize with the relations and friends of our deceased fellow member, in the loss of an affectionate husband, kind father and sincere friend, and commend them for consolation unto Him who doeth all things well."

Resolved, That the Engine House be draped in mourning for the space of thirty days, and that these proceedings be published.

A LECTURE.—A lecture will be delivered at the Methodist Church, in Vancouver, on to-morrow evening at 8 o'clock, by Rev. S. H. Marsh, President of the Pacific University. At the close of the lecture a collection will be taken up in furtherance of the objects of the Ladies' Sanitary Aid Society.

SECURE.—The three principal actors in the late Cascades tragedy, and an Indian accomplice, were brought to Vancouver on the *Hunt* yesterday. They waived examination, and are held secure for trial in the guard house of the Fort.

THE rains of Monday and Tuesday have been of incalculable benefit to the agricultural interests, in our valley.

AN ADVANCE MOVEMENT.—It is now fully established that a change has taken place in certain quarters which will captivate whole households, and is attracting the attention of the many interested. We refer more particularly to Grover & Baker, who seem to have scaled the walls of perfection, and are now furnishing sewing machines, which not only sew all varieties of fabric most perfectly, but enter into the accomplishment, and with the same machine execute the most elaborate and elegant embroidery. Mothers will hail with delight this contribution to their comfort, and avail themselves of an opportunity to examine these great improvements at the rooms of this enterprising firm.—*Baltimore Gazette.*

In every age of the World, the professions have been slow to admit the value of new discoveries, or the expediency of adopting them in practice. It is not to the legal profession that we look for reforms in jurisprudence, neither do we find the advocates of medical reform among physicians. Each deprecates whatever is found to innovate upon received opinions and established usage. Hence the opposition which medical men too often exhibit to the use of private remedies, whatever their acknowledged value, or great efficiency in the cure of disease. No medicine has ever done more for the relief of human suffering than Dr. Osgood's India Cholagogue. The certainty with which it cures Fever and Ague, and eradicates bile from the system, is acknowledged by all.

Be particular to enquire for *Dr. Osgood's India Cholagogue*, and take no other. Sold everywhere.

From the army hospital—the bloody battle-field—the mansion of the rich and humble abode of the poor—from the office and the sacred desk—from the mountain top, distant valleys and far-off islands of the ocean—from every nook and corner of the civilized world—is pouring in the evidence of the astonishing effects of DRAKE'S PLANTATION BITTERS. Thousands upon thousands of letters like the following may be seen at our office.

REEDSBURY, Wis., Sept. 16, 1864.
" * * * I have been in the army hospitals for fourteen months—speechless and nearly dead. At Alton, Ill., they gave me a bottle of Plantation Bitters. * * * Three bottles restored my speech and cured me. * * *
C. A. FLAUTS."

SOUTH WARSAW, O., July 28, 1863.
" * * * One young man, who had been sick and not out of the house for two years with Scrofula and Erysipelas, after paying the doctors over $150 without benefit, has been cured by ten bottles of your Bitters."
EDWARD WOGNALL.

The following is from the manager of the Union Home School for the Children of Volunteers:

HAVEMEYER MANSION, FIFTY-SEVENTH STREET, }
NEW YORK, August 2, 1863. }

"DR. DRAKE: Your wonderful Plantation Bitters have been given to some of our little children suffering from weakness, and weak lungs with most happy effect. One little girl, in particular, with pains in her head, loss of appetite, and daily wasting consumption, on whom all medical skill had been exhausted, has been entirely restored. We commenced with but a teaspoonful of Bitters a day. Her appetite and strength rapidly increased, and she is now well. * * * Respectfully, MRS. O. M. DEVOE."

" * * * I owe much to you, for I verily believe the Plantation Bitters have saved my life.
REV. W. H. WAGGONER, Madrid, N. Y."

" * * * Thou wilt send me two bottles more of thy Plantation Bitters. My wife has been greatly benefited by their use.
Thy friend, ASA CURRIN, Philadelphia, Pa."

" * * * I have been a great sufferer from dyspepsia, and had to abandon preaching. * * * The Plantation Bitters have cured me.
REV. J. S. CATHORN, Rochester, N. Y.

" * * * Send us twenty-four dozen more of your Plantation Bitters, the popularity of which are daily increasing with the guests of our house.
SYKES, CHADWICK & CO.,
Proprietors Willard's Hotel, Washington, D. C.

" * * * I have given the Plantation Bitters to hundreds of our disabled soldiers with the most astonishing effect.
G. W. ANDREWS,
Superintendent Soldiers' Home, Cincinnati, O.

" * * * The Plantation Bitters have cured me of liver complaint, of which I was laid up prostrate and had to abandon my business. H. B. KINGSLEY, Cleveland, O."

" * * * The Plantation Bitters have cured me of a derangement of the kidneys and urinary organs that has distressed me for years. It acts like a charm.
C. C. MOORE, 254 Broadway, N. Y.
etc. etc. etc. etc. etc.

The Plantation Bitters make the weak strong, the languid brilliant, and are exhausted nature's great restorer. They are composed of the celebrated Calisaya Bark, Wintergreen, Sassafras, Roots, Herbs, &c. all preserved in perfectly pure St. Croix Rum.

S. T.—1860.—X.

Persons of sedentary habits troubled with weakness, lassitude, palpitation of the heart, lack of appetite, distress after eating, torpid liver, constipation, &c., deserve to suffer if they will not try them.

They are recommended by the highest medical authorities, and are warranted to produce an *immediate* beneficial effect. They are exceedingly agreeable, perfectly pure and harmless.

NOTICE.—Any person pretending to sell Plantation Bitters in bulk or by the gallon is a swindler and impostor. It is put up only in our patent log cabin bottle. Beware of bottles refilled with imitation deleterious stuff for which several persons are already in prison. See that every bottle has our private United States Stamp over the cork unmutilated, and signature on steel plate side label.

Sold by respectable dealers throughout the habitable globe.

SOME OF YOU CAN'T, AND WE PITY YOU. You have tried every remedy but the right one. That one is destined, by its intrinsic merit, to supersede all other preparations. Pulmonary Syrup!

And with one accord give it their unqualified approbation. We now address ourselves to all who are unacquainted with this, the Greatest Remedy of the Age for the healing of all Diseases of the Throat and Lungs, assuring you that

NEWELL'S
Pulmonary Syrup!

Has cured thousands, and it will cure YOU if you try it.

"Going Alone"

W th curls in the sun [illegible] tossing
W th light in the [illegible] blue eyes
With laughter [illegible] outring [illegible]
A laugh of delight and surprise,
All friendly assist[illegible] disdaining
And trusting to strength but its own—
The past fears [illegible] forgotten,
The baby is going alone

What woeful mishaps have preceded
This day of rejoicing [illegible]
How often the help th[illegible]

He has fallen [illegible]
Which just as [illegible] have flown
And the tears of vexation have flowed
But now he is going alone

And all through his life he will study
This lesson [illegible]
He will carelessly [illegible]
He will fall and we [illegible]
The [illegible] whose [illegible] surest
Will coldly [illegible]
The [illegible] eyes will be clouded,
And he will be walking alone

He will learn what a stern world we live in
And he may grow cold like the rest
Just keeping a war [illegible]
For those who seem truest at best
Yet chastened and taught by past sorrow,
And stronger and manlier grown
So trusting his all in their keeping
He learns to walk bravely alone.

And yet not alone for our Father
The faltering footsteps will guide
Through all the dark mazes [illegible] life,
And [illegible] over the [illegible] deep tide
Oh! here is a helper unfailing,
A strength we can perfectly trust
When all human aid is unavailing

A Novel Courtship

Madam D , who resides at Chalon, was a lady of the strictest character, with a heart proof against all allurements She prided herself upon her insensibility and her profound indifference, and repulsed all those gallants who had volunteered to offer their address The country was for her a veritable retreat, she shunned re unions and was only happy in solitude The charms of a chosen circle, the pleasures of the world, had for her no attraction, and her favorite recreation was that of angling, an amusement of an unfeeling woman

She was accustomed every pleasant day to station herself at the extremity of the lonely island of Chalon, and there, with her book in one hand and her line in the other, her time was passed in fishing, reading or dreaming.

A lover who had always been intimidated by her coolness, and who had never ventured on a spoken or written declaration, surprised her at her favorite pursuit one day, when he had come to the island for the purpose of enjoying a swimming bath

He observed her for a long time without being discovered, and busied himself with thinking how he might turn to his advantage, this lonely amusement of angling His reveries were so deep and fortunate that he at last hit upon the desired plan—a novel expedient indeed—yet they are always more successful with such women as pretend to be invulnerable. The next day our hero returned to the island, studied the ground, made his arrangements and when Madam D had resumed her accustomed place, he slipped away to a remote and retired shelter, and after divesting himself of his clothing, entered the stream An excellent swimmer and skillful diver, he trusted to his aquatic talents for the success of his enterprise He swam to the end of the island with the greatest precaution, favored by the chances of the bank and bushes, which hung their dense foliage above the water In hand was a note folded and sealed, and on arriving near the spot where Madam D was sitting, he made a dive and slightly seizing the hook, he attached it to his letter

Madam D , perceiving the movement of her line, supposed that fish were biting.

The young man had retired as he came having doubled the cape which extended into the water, separating them from each other, and had regained his spot without the least noise in his passage under the willows The deed was done

Madam D pulled in her line, and what was her surprise to observe dangling from the hook, not the expected "shiner" but an unexpected letter

This was, however, trifling, but her surprise became stupefaction when detaching the transfixed billet, she read upon it—her name

So, then, this letter which she had fished up, was addressed to her

This was somewhat miraculous She was afraid Her troubled glance scrutinized the surrounding space, but there was nothing to be seen or heard, all was still and lonely both on land and water.

She quit her seat, but took away the letter As soon as she was alone and closeted with herself, and as soon as the paper was dry—a paper perfectly waterproof and written upon with indelible ink—she unsealed the letter and commenced its perusal

A declaration of love! cried she at the first words, what insolence!

Still the insolence had come to her in such an extraordinary manner that her curiosity would not suffer her to treat this letter as she had so many others—pitilessly burn it without reading

No—she read it quite through The lover who dated this letter from the bottom of the river, has skillfully adopted the allegory, and introduced himself as a grotesque inhabitant of the waters The fable was gracefully managed, and with the jesting tone which he had adopted, was mingled a true, serious, ardent sentiment, expressed with beauty and eloquence

The next day Madame D returned to the island, not without emotion and a trace of fear

She threw her line with a trembling hand, and shuddered as a moment after she perceived a movement of the hook

Is it a fish? Is it a letter? It was a letter

Madame D was no believer in magic—still there was something strange and supernatural in all this

She had an idea of throwing the letter back into the stream, but relinquished it The most stubborn and haughty woman is always disarmed in the face of the mystery which captivates her imagination

The second letter was more tender, more passionate, more charming than the first Madame D read it several times and could not help thinking about the delightful merman that wrote such bewitching letters

On the subsequent day she attached her line to the bank, and left it swinging in the water while she withdrew to a landing place upon the extremity of the island She returned to the place, withdrew the line—and there was the letter

This time an answer was requested It was rather premature yet the audacious request obtained a full success The reply was written after some hesitation and the book dropped into the stream, charged with a letter that was intended to say nothing, and affect a sort of badinage—which was, nevertheless, a bulletin of a victory gained over the hard severity of a woman till then unapproachable

Madam D had too much shrewdness not to guess that her mysterious correspondent employed instead of magic, the art of a skillful diver Scruples easily understood restrained her from that portion of the bank where she was sure that the diver would emerge from the water

But this game of letters amused her First, it pleased her intellect and her curiosity became so lively, that she wrote to him—

Let us give up this jesting, which has pleased me for the moment, but should continue no longer, and come with your apologies to Chalon

The lover answered—

Yes, if you will add—Hope

If only a word is necessary to decide you, be it so

And the word was written.

The young man appeared and was not a loser The gift of pleasing belonged to his person as much as to his style and he had made such rapid progress under water that it was easy to complete his conquest on land They were married

---

THE FIRST WEDDING —We like these short courtships, and in this Adam noted like a man—he fell asleep a bachelor, and awoke to find himself a married man He appears to have popped the question almost immediately after meeting Miss Eve, and she without flirtation or shyness gave him a kiss and herself Of that first kiss in the world we have had our thoughts, however, and some times, in a poetical mood, wished we were the man that did it But the deed was done—the chance was Adam's, and he improved it We like the notion of getting married in a garden Adam's was private No envious aunts and grunting grandmothers The birds of the heavens were the minstrels and the glad sky flung its light on the scene One *good* thing about the first wedding brings queer things to us in spite of its scriptural truth Adam and his wife were rather young to marry, some two or three days old according to the sagest elder, without experience, without a house a pot or kettle, nothing but love and Eden —*M M Noah*

HOUSEHOLD WORDS —Pshaw! Stop your noise! Shut up this minute! I'll box your ears! Hold your tongue! Let me be! Get away! Get out! Behave yourself! I won't! You shall! Never mind! You'll catch it! Don't bother! Come here directly! Put away those things! You'll kill yourself! I don't care! They're mine! Mind your own business! I'll tell ma! You mean thing! There, I told you so! You did! I did! I will have it! O, look what you have done! 'Twas you! Won't you catch it, though! It's my house! Who's afraid of you! Mah-h-h! Boo, boo, boo, boo oo! What's the matter? Get out of this room, directly! Do you hear? Dear me! I never did see in all my born days! It's enough to send one crazy! Would you put a tuck in it? Well, says I! Says he Says they! Bless me, No! Hem it all the way round! Thread flounces! Gored! Worked crosswise! Trimmed with velvet! Ten yards! Cut bias! Real sweet

A wag seeing a lady at a party with a very low necked dress and bare arms, expressed his admiration by saying she "out-stripped" the whole party

It is well known that the medicinal effect of Protoxide of Iron is lost by even a very brief exposure to air and that to maintain a solution of Protoxide of Iron without further oxidation, has been deemed impossible

In the Peruvian Syrup this desirable point is attained by COMBINATION IN A WAY BEFORE UNKNOWN and this solution may replace all the proto carbonates, citrates and tartrates of the Materia Medica A A HAYES M D,

IODINE WATER.

IODINE WATER IS THE MOST IMPORTANT DISCOVERY of modern chemistry, and it is impossible to over-estimate its influence as a remedial agent Iodine has been considered the most useful article in Materia Medica, and many of the most scientific and practical chemists and physicians have investigated its effects upon the human system It is to act upon the

HEART,
LIVER, KIDNEYS,
DIGESTIVE ORGANS AND GLANDULAR SYSTEM,
and to have great control over
SCROFULOUS AFFECTIONS.

Notwithstanding the zeal and ability which have been devoted to its investigation, it remained almost useless until Dr Henry Anders a physician and chemist of New York, after years of patient labor and experiment, discovered a chemical process which enabled him to dissolve

PURE IODINE IN PURE WATER

without a solvent This, considered impossible by the scientific world is attested by certificates of analysis from Dr J R Chilton of this city, and Prof Booth U S Mint Philadelphia The importance of this discovery was so highly appreciated by the Faculty that it was published in the Medical Journals and its use recommended to practitioners (see "American Medical Monthly, July & 1860, page 76)

This valuable medicine is now available to the public for the cure of Scrofula in all its manifold forms, Consumption Cancer Heart Liver and Kidney Diseases Rheumatism Neuralgia, Nervous Affections, Dyspepsia, Bronchitis, etc

AS A TONIC

Its operation is evinced by strengthening the digestive organs and increased nutrition of the body is the result of the employment of Iodine The patient recovers flesh strength and color, hitherto pale relaxed and feeble he becomes full strong and florid
